Announcement

THE MORRIS NURSERIES was established in 1847 by Paschall Morris. Purchased in 1866 by Otto & Achelis, and managed by this firm until 1875 when George Achelis assumed the sole ownership. After fifty-seven years of successful business, George Achelis was succeeded by Martin E. Lorgus and Clarence F. Lear, the present owners.

WHEN TO PLANT

Spring planting from March 15 until May. Fall planting from October 15 until ground freezes. Evergreens may also be planted in August and September if we have sufficient rain.

HOW TO PLANT

Be sure to dig holes large enough to admit roots without cramping. Pack soil tightly around roots and use plenty of water. Water frequently during dry spells. Do not water plants during the heat of the day; morning or evening is better.

LANDSCAPE DEPARTMENT

We have experienced landscape architects who will gladly call upon request, give suggestions, draw plans, and quote special prices on large orders.

GUARANTEE

While we are extremely particular in having our trees and plants true to name, mistakes may occur, and it is therefore mutually agreed between the purchaser and us that we be held responsible only so far as to replace such trees as, on proper proof, may be found untrue to label, or refund the amount originally received for them.

Rhododendron Maximum

This is a hardy evergreen shrub

Thrives best in shady and partly shaded places. Although it bears beautiful flowers, it is planted mostly for its dark green foliage which will grow well in the shade. If you have a shady place where other plants have failed to grow, try these. We know they will meet with your satisfaction.
